Some ten years ago Dr. G. A. Hess, one of the most celebrated of eastern physicians, quietly rented an office at 25 Monroe street, Grand Rapids, hung out his sign, and went to work at the performance of some of the most wonderful cures ever achieved in this section. The doctor has indulged in no bluster or bravado of any sort, but has allowed his works to advertise his merit, and through these works has gradually but thoroughly awakened general interest and excitement. In all cases of catarrh, bronchitis, consumption, (so called) s.ll manner of pulmonary diseases, affections of the throat, stomach, liver, kidneys, dyspepsia, chronic piles, Mrs. Geo. The doctor's great specialty, however, is in the treatment and radical cure of cancers. The worst cases succumb to his novel, scientific course of treatment, which is painless to the patient, involving the use of neither knife nor caustic, nor other dread agent of any sort. The doctor's prices are as reasonable as his methods are original, simple and radical.
